About me

I am a Full Stack Developer with expertise in UI/UX. I have experience working with Next.js, React, MongoDB, Python, Java, and C++, and I am currently seeking a position where I can utilize my diverse skillset. I am open to Full-Stack, Front-End, or Software Development roles in a collaborative team environment. My goal is to build innovative applications and contribute to a company that values mutual development. I am eager to learn and grow within such a company.

Work History

- Internshala — Internshala Student partner
  - June 2023 - August 2023

  As an Internshala Student Partner, I contributed to business marketing by promoting deals and products through various marketing activities. This included strategic planning and hands-on execution, convincing my peers and college colleagues to buy these products and get those exciting deals.
